It's OK Rob, thanks for letting us know. We look forward to the CPG's analysis of the data.

=====
** High Priority **

Stephanie & Eugenia:

The CPG will collect and analyze PCBs as well as the remainder of the analytical parameters in the Bay on Wednesday (6/6) and Thursday (6/7). We have looked at the PCBs and we are not in total agreement with HQI's observation that there is large percentage of non-detects - is this out of the total 209 congeners or in relation to those congeners detected in the LPR?

Has Tierra responded to your May 31 email?

Please contact me with any questions.

Thank you.
